

Our People Make The Difference

TRAILER MECHANICS (Albertville, MN)

Are you the kind of mechanic who can make a difference too? Trudell Trailers, the Midwest's number one semi trailer resource, is growing again and needs talented mechanics to join the service team in our Albertville, Minnesota facility. Positions are available on both first and second shift.

Our Trailer Technicians (as we call them) are responsible for removing and replacing damaged components, electrical repairs, brake and axle work, and welding. This work requires an individual to be mechanically inclined and able to trouble shoot problems and come up with suitable repair solutions, the ability to climb ladders and scaffolding and crawl underneath trailers, the ability to perform some overhead lifting when replacing side sheets and roof bow supports, the ability to use both hands and arms when using high power hand tools, saws, grinders, drill, etc, and vision good enough to do bearing inspections and welding. Additionally, entering and exiting trailers from and to shop for customer service with company yard tractor requires applicants to possess a valid driver's license with an acceptable driving record. Successful candidates should own their own tools and be able to pass a physical and drug screen.

Qualified and talented mechanics with a passion for excellent customer service are invited to complete an application form at:

Trudell Trailers of Minnesota, 9600 71st Street NE, Albertville

Or fax a resume to 763-497-7086. Credentials may also be emailed to resume@trudelltrailers.com

In return for your talent, Trudell Trailers offers a competitive wage and benefit package in an excellent working environment where our people really do make the difference. For more information about Trudell Trailers, please visit our web site at www.trudelltrailers.com.
